Fabric Structure

Why Winkler

Winkler Structures' equestrian structures provide a riding environment that is second to none. With a variety of standard styles and customization options, you will be sure to find the perfect structure for your needs.

Allow your horses to experience a more enjoyable environment with the bright, airy, and open atmosphere.

Experience cost-efficiency with natural lighting, which can provide you savings of up to 80% in energy costs.

Winkler Fabric Structure Benefits

- ✓ Large savings vs traditional buildings
- ✓ 15-20 degrees cooler in summer
- ✓ 15-20 degrees warmer in winter
- ✓ 83% natural daylight transferred through the white cover
- ✓ 15 year warranty
- ✓ Cover designed to last 20+ years
- ✓ Relocate or extend to meet specific needs
- ✓ Maintenance free

What Our Customers Are Saying

"At 228 feet long and 100 feet wide, it offered the room required for Hunter Jumpers, Dressage, Barrel Racing and large Clinics. We even have two boarders who drive horse drawn carriages inside the arena in preparation for competitions. Our new riding arena has far surpassed our expectations. We are thrilled with our choice of a Winkler Structure!"

Layers of Protection

Our structures are made with Gatorshield Galvanized Steel, with superior, triple-layer rust and corrosion resistant product protection.

Superior Coverage

Our 12 oz. fabric covers offer rip, puncture, and tear resistance, and are virtually maintenance free. With the option of fire retardant material; our covers last for decades.

Ask how a Winkler Structure can be built alongside existing barns and extend your existing facility.
